

SANJAY DODDAMANI

Marketing | Web Specialist | Data Analyst | Vasco-Da-Gama, Goa | +919545639101

doddamanisanjay02@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-oriented professional with a Bachelor of Computer Application (CGPA 8.52). I bridge the gap between creative design and technical data analysis, utilizing Python, SQL, and Power BI to turn campaign engagement into actionable reports. Experienced in applying Agile and SDLC methodologies to project workflows, with a passion for building functional, user-centric applications and automating data-driven insights.

TECHNICAL SKILLS

Data Analytics: SQL, Python (Pandas/NumPy), R, Power BI, Tableau, Excel.

Generative AI: Prompt Engineering (Zero-shot/Few-shot), LLM utilization (ChatGPT/Claude) for Code Optimization, Automated Data Labeling, and Documentation.

Web Development: Django, HTML, CSS, JavaScript.

Specialized Tools: InDesign, Photoshop, Mailchimp, Dotdigital, WIX.

Process: Agile, SDLC, Data Visualization, Statistical Techniques, Problem-Solving.

PROFESSIONAL EXPERIENCE

Travelpack (UK Shift) | 05/2024-Present

Verna | Web Designer

- AI-Assisted Analysis: Utilized Generative AI tools to streamline the creation of weekly interaction reports, reducing data processing time by automating complex Excel formulas and Python scripts.
- Performance Tracking: Monitored airline marketing campaigns, using analytical tools to translate engagement metrics into performance reports for senior stakeholders.
- Web Management: Maintained high-accuracy web assets and agent databases using HTML/CSS and WIX.
- Collaboration: Facilitated cross-functional meetings via Zoom to resolve technical queries and present campaign findings.

TECHNICAL PROJECTS & CERTIFICATIONS

Data Analysis Boot Camp | Udemy (In Progress)

Deepening expertise in data cleaning, exploratory data analysis (EDA), and advanced SQL queries.

Applying Agile principles to manage project milestones and SDLC phases for data pipeline development.

1. E-Commerce Platform for Pet Services (BCA Final Year Project)

Tech Stack: MERN (MongoDB, Express, React, Node.js).

Developed a full-stack marketplace for pet products; implemented user authentication and dynamic catalogs using an Agile framework.

2. Voice-Enabled Taxi Service Portal | Django

Tech Stack: Python, Django, JavaScript.

Built a booking interface featuring unique Voice Command Integration for real-time weather updates via API.

3. HR Analytics Dashboard | Power BI

Designed an interactive dashboard to analyze employee retention rates and identify drivers of attrition.

EDUCATION

MES Vasant Joshi College of Arts and Commerce (2020–2023).

Bachelor of Computer Application (BCA) | CGPA: 8.52
